Cheshire and Merseyside Health and Care Partnership

Data Sharing Agreement (Tier Two)

Workstream: COVID-19 Intelligence

Addendum E - Pregnancy Register and Covid Vaccinations

Contents

Addendum D - Pregnancy Register and Covid Vaccinations

1. Overview

This Addendum sets out the additional work to flow in a pregnancy register into CIPHA to link with other datasets so we can get accurate vaccine uptake rates and enhanced intelligence on this cohort.

There are safety concerns with current uptake rates leading to serious harm and even mortality in some cases, and so the quicker we can mobilise this the better for our C&M population.

Directors of Public Health are pushing for this, as is the Covid Vaccine Programme.

Ultimately there is no new parties to the agreement. This is a data flow from our existing partner Trusts into CIPHA, but because it is a new dataset, we need this Addendum.

This Addendum should be read in conjunction with the:

> Cheshire and Merseyside Health and Care Partnership:
> Workstream: Combined Intelligence for Population Health Action (CIPHA)
> COVID-19 Intelligence
> - Data Sharing Agreement (Tier Two)
> - Data Protection Impact Assessment (DPIA)
> - Addendum A - Flu and Pandemic Covid-19 Vaccinations
> - Addendum B - Covid-19 Vaccination NIMS
> - Addendum C - COVID Transmissions: Mass Testing Vaccinations and Events
> - Addendum D - Restoration of Elective Activity

2. Lawful Basis

This Project is covered by the Control of Patient Information Notice (COPI) for COVID, under Regulation 3(4) of the Health Service Control of Patient Information Regulations 2002.

In addition, GDPR is met by:

Processing Personal Data - Article 6

6(1)(e) Necessary for the performance of a task carried out in the public interest or in the exercise of official authority vested in the controller.

Processing Sensitive Personal Data – Article 9

9(2)(h) Necessary for the reasons of preventative or occupational medicine, for assessing the working capacity of the employee, medical diagnosis, the provision of health or social care or treatment or management of health or social care systems and services on the basis of Union or Member State law or a contract with a health professional.

9(2)(i) Necessary for the reason of public interest in the area of public health, such as protecting against serious cross border threats to health or ensuring high standards of healthcare and of medicinal products or medical devices.

3. Data Set and Data Use

Data will flow from our existing partner Trusts into CIPHA.

The data set is set out below:

Graphnet Feed Spec -
Pregnancy Register Po

Data will be used for the following purposes:

- To create an accurate understanding of covid vaccination rates for pregnant women in order to manage clinical risk in low vaccination rates
- To link toother datasets to understand the epidemiology of pregnant populations with low uptake and target communications effectively

4. DAAG: Access Request

In support of this data flow, the local DAAG: Access Request form - Pregnancy Register and Covid Vaccinations, is embedded below:

DAAG COVID
Vaccination in Pregna

5. Combined Intelligence for Public Health Action (CIPHA)

Please see the CIPHA website for key documents that support the work:
